

TOPICAL - PLANET CONCIIOUS

Clockwise from top left, first three created for Our Planet Week where artists from around the world are invited to create artworks in response to the following prompts:
PROTECT - my interpretation Protect.Mother.Earth inspired by Greek mythology
ENERGY - in celebration of our solar energy, the Sun,without which, life would not exist
BIODIVERSITY - Bees play a crucial role and are essential for pollination, which in turn provides us with food. Without bees we would seriously impede our ability to feed humans. No Bees. No Food

Middle - created in response to Greenpeace art initiatives - DOLPHINS and WHALES

VOICE - conceptual piece created to symbolise the lost voice of the white tigers. White tigers exist in captivity and as the result of continual, destructive and unethical inbreeding.
